PROFILE

Dedicated and motivated 29-year-old DevOps & Software Engineer with expertise in Jenkins, Azure & GitLab Pipelines. Proficient in version control systems like Git, I have a strong passion for programming and a commitment to ongoing learning. My professional goal is to initiate impactful projects with practical applications, especially those focused on time-saving solutions. I thrive on making a positive difference in people's lives through innovative and user- friendly software. Eager to contribute my skills and enthusiasm to dynamic teams and projects.
